

Mailbox systems, display cases, steles, signages, parcel locker systems, special equipment

PLANNING DOCUMENTS

Business Class surface-mounted mailbox system model 04-740 engraved box with Nova 20 panel with 70 mm roof overhang with integrated LED lighting 21-697

Vertical mailboxes are particularly suitable where the structural conditions require the smallest possible depths of the mailboxes or mailbox systems, whether in the flush-mounted, surface-mounted or free-standing installation variants. A wide range of coverings can be used to meet the most varied requirements for optics or materials. For commercial real estate or for higher mail volumes, we recommend our standard solution model 04-700 with a depth of 150 mm with an appropriate panelling profile.

III. 43/1

Business Class free-standing system model 04-640 with round profile panelling 22-243N continuous as a frame with base plates I/D box with intercom grid 21-176 doorbell button 21-217E name plate 21-134

Economy Class free-standing mailbox system model 04-640 with Sky panelling 22-243N rectangular tube stands 20-315 with base plates I/D box with intercom grid 21-161 name plate doorbell button 21-113

Model 04-300

Box: 260 x 330 x 110 mm

Mail slot: 220 x 35 mm (DINA4) with mail slot flap, 220 x 30 mm (DINA4) without mail slot flap
