name plate 21-134
module preparation for the module (camera) to be supplied by the customer
engraving box with the street and house number engraving
with acrylic glass, flush-mounted
rear wall
Nova 20 panelling, continuous as stand 22-316

Horizontal, space-saving mailboxes are particularly suitable where there is space in the depth, but not necessarily in the surface. The mailboxes of the series 08 can also be used efficiently for multi-part, large systems. Available in three widths and two different depths, the options we offer are diverse.
