

Model 09

Mailbox systems, display cases, steles, signages, parcel locker systems, special equipment

PLANNING DOCUMENTS

Briefkasten &
Briefkastenanlagen

Box and door in a robust design. Available for mail, installation, package and special purpose banks. Housing made of reinforced hot-dip galvanized steel or stainless steel. Door in a 24 mm version made of aluminum or stainless steel. Extra reinforced hinges provide additional protection. Including box lock with profile cylinder. Optimum double or triple lock.

Available in the following dimensions:

Width: 400 - 1000 mm

Height: 500 - 1000 mm

Depth: 150 - 600 mm

Example: JU-Safety Class as day/night mailbox - mailbox for time-sensitive material

The mail that has been posted too late is reliably separated from timely mailings and stored safely. The switching times are precisely controlled by a control unit. A lamellar protection, the reinforced housing and door design provide efficient mail protection.
